

## ALLISON M. ADAMS, DMD GENERAL DENTISTRY

**W**hat makes Dr. Allison Adams' practice special? From a 3-year-old boy who stopped sucking his thumb to a 60-year-old woman who hadn't been to the dentist in years and now swears she'll never leave the practice, Dr. Adams treats her patients as individuals, addressing their needs, concerns, goals, and fears. "I look beyond teeth and concentrate on a patient's overall health," she says.

A graduate of UMDNJ, Dr. Adams provides a range of services to address patients' needs conveniently in one location. She is one of the few area dentists treating sleep apnea with oral

appliances, and she blends cosmetic dentistry with orthodontics to improve patients' appearances. Dr. Adams considers the face when treating her patients, stating simply, "Your teeth need to complement your face." Dr. Adams is a Premier Invisalign Provider and offers minimally invasive and laser dentistry.

Dr. Adams' team makes every visit a memorable one. "Our vision is to change people's perception of dentistry," she says. "Patients have a different experience here than they've had in other offices." Their efforts must be working, since one patient recently proclaimed, "You make being a patient here easy!"
